[11:22] <kingofhypocrisy> wtf is this remix

[11:23] <kingofhypocrisy> Chris was sperging out hard, total internet tough guy

[11:28] <bethelewd> hope jimbob comes to stream today we need to bet on how many times phil will fail at PUBG :D

[11:28] <deepdrive3254> :D

[11:28] <bethelewd> hello deep

[11:28] <deepdrive3254> hello there bethe

[11:28] <bethelewd> danzBatTAS

[11:29] <kingofhypocrisy> 2 minutes to till stream

[11:29] <kingofhypocrisy> 1 minute

[11:29] <deepdrive3254> nice bat emote

[11:29] <blacktemplar2252> Hey Bethe can I bet on how long before DSP blames the devs lol

[11:29] <bethelewd> danzBane

[11:30] <bethelewd> blacktemplar lol sure

[11:30] <kingofhypocrisy> Better hope Philipo doesn't ban u himself tho

[11:30] <media_snob> Afternoon fellow stains on society.

[11:30] <blacktemplar2252> @KingOfHypocrisy Oh I'm just doing it in chat lol, if he bans me it's because he is anti-fun lol

[11:30] <deepdrive3254> well the devs had to apologize for rampant cheating in the game a while ago

[11:31] <bethelewd> that was the pc version

[11:31] <blacktemplar2252> @deepdrive3254 Yeah but they constantly ban accounts daily on PC, besides we all know PC is the better PUBG

[11:31] <bethelewd> this is console totally different

[11:31] <deepdrive3254> pc is better because theres more cheaters? suuuuure

[11:32] <kingofhypocrisy> @BlackTemplar2252 yeah but sometimes Phil isn't in the mood for fun... fuuuuuuunnnnnnn

[11:32] <deepdrive3254> yeah this should be better

[11:32] <blacktemplar2252> @deepdrive3254 No PC is better because there is better hardware and just in general better

[11:32] <bethelewd> deep of course pc gamers are cheaters we all know consoles gamers dont cheat

[11:32] <blacktemplar2252> If Phil went on PC he would get destroyed

[11:32] <blacktemplar2252> @BeTheLewd LuL thats funny

[11:32] <bethelewd> dont start fighter over pc vs console please

[11:33] <bethelewd> i wasnt serious anyway

[11:33] <blacktemplar2252> For some games PC is better others it's Console. PUBG is just better on PC

[11:33] <blacktemplar2252> Oh I know Bethe just giving my 2 cents

[11:33] <bethelewd> pubg was made for pc

[11:33] <bethelewd> it only got ported to xbox cause microsoft

[11:34] <bethelewd> the fuck was that kekon

[11:34] <kingofhypocrisy> PC gamers are elitist nudniks dood, like, I used to be one of you!

[11:35] <darksydephil> hello!

[11:35] <darksydephil> got some great news today folks

[11:35] <deepdrive3254> we need more games ported to linux

[11:35] <deepdrive3254> hey phil

[11:35] <bethelewd> i always been a playstation guy so i dont know about switch, pc or xbox hey phil

[11:35] <blacktemplar2252> I don't play PC that much. More XBONE. But I know PUBG should be played on PC and the caliber of gamer on PC is better than Console

[11:35] <bethelewd> GOOD NEWS WOOOO

[11:35] <kingofhypocrisy> the patreon thing got reversed ?

[11:35] <darksydephil> yes, the Patreon backlash has totally destroyed their bullshit

[11:35] <darksydephil> and they are not doing the changes

[11:35] <blacktemplar2252> For now

[11:35] <kingofhypocrisy> nice

[11:35] <darksydephil> so many people lost tons of Patrons over it they had to backpedal

[11:36] <blacktemplar2252> They said they were looking at it to tweek it

[11:36] <kingofhypocrisy> good thing they listened unlike youtube

[11:36] <darksydephil> so this might save the MGS goal, which honestly i was pretty scared about especially bc i really need the help this month

[11:36] <bethelewd> youtube are like FUCK YOU

[11:36] <bethelewd> patreon is like OH SHIT SORRY GUYS

[11:36] <blacktemplar2252> @DarksydePhil Still a long way to go yet

[11:36] <matty3888> yeah the news..political shows are pissed about patreon too phil

[11:37] <blacktemplar2252> @DarksydePhil Wouldn't count your chickens just yet lol

[11:37] <bethelewd> metal gear solid needs to be played regardless of patreon

[11:37] <blacktemplar2252> Maybe on Hard mode

[11:38] <blacktemplar2252> As it was played on Normal years ago. Gives it some freshness

[11:38] <darksydephil> maybe, just maybe, you can stop with that stupid shit lol

[11:38] <kingofhypocrisy> Patreon probably saw all the money they were losing and that's why they changed their mind lol

[11:38] <darksydephil> im not playing it on hard mode, and anyone who demands that is a moron. sorry, it's just true

[11:38] <darksydephil> i need to play the game for real once before i go on extra challenging runs

[11:38] <darksydephil> thats like saying well Phil played Dark Souls once, so play it on hard the second time

[11:38] <blacktemplar2252> @DarksydePhil I wasn't demanding anything, I was just stating an option you could take

[11:39] <darksydephil> the option is stupid. so stop stating it

[11:39] <blacktemplar2252> @DarksydePhil Hmm interesting

[11:39] <kingofhypocrisy> @DarksydePhil You should make a Patreon goal where you play games on the hardest difficulty first time around. People would love it

[11:39] <mujtaba12321> even if patreon takes back the fee changes, how are they gonna get the people who dropped their pledges to come back?

[11:39] <bethelewd> kekon you HAVE to listen to it

[11:40] <darksydephil> mujtaba12321 : of course that now lies on the creators, which isn't fair

[11:40] <darksydephil> i already lost a few

[11:40] <darksydephil> not too many luckily

[11:40] <matty3888> why isnt there a alternative to patreon out there?

[11:40] <theycallmejimbob> kekon VoHiYo

[11:40] <theycallmejimbob> hello hello dspHm

[11:40] <f_on_yo_bit> @DarksydePhil these dudes just trying to troll bro dont let them get to you

[11:50] <thenewfaceofcreation> Dood
[11:50] <timboslicegb> this game dont even look that good on pc
[11:50] <reggarz1> It's a slowass AMD chip based on Bulldozer arch
[11:50] <reggarz1> so yes, it's trash
[11:50] <glorytobeh> @BlackTemplar2252 anything with an AMD cpu cannot be a gaming pc lol
[11:50] <wxrxaxtxh> @TheNewFaceofCreation hi dooooooooood
[11:50] <bethelewd> jim yeah most channels do that they have a bunch for 5 dollars and one for tier 2 and 1 for tier 3

[11:51] <sh1nn> XBO runs games like GTA V, Fortnite and Wildlands no problem and they looks way better than PUBG
[11:51] <reggarz1> I'm not sure why anyone expected a game that was built for PC to run well on a console
[11:51] <darksydephil> the game is unoptimized and unfinished everywhere, so you cant really blame hardware here. why even release it on a console they know cant handle it? answer: greed.
[11:51] <bethelewd> yes jim i woke up early

[11:59] <ronmexicooo> Maybe like 6 months too late LUL
[12:00] <thefryguy88> Thank god it didn't win. There's no scenario where a game thats still in early access should win GOTY. That is just a ridiculous notion.
[12:00] <bobbi_ling> baeoh goty
[12:00] <seth189> it destroys the cpu
[12:00] <infinite_sphere> the game runs terribly on xbox LUL

[12:01] <gettwobirdsstonedatonce> How long was Minecraft in beta?

[12:02] <bethelewd> jim you see eastenders though at the max shit
[12:02] <bobbi_ling> pubg makes me ResidentSleeper

[12:03] <wxrxaxtxh> im playing on xbox one, its buggy and choppy as fuck
[12:03] <concretcasket> its like the more money they make in early access the longer it takes to release
[12:03] <markymark52> I'm sure it doesn't run that low on the Xbox One X
[12:03] <zukyun> e sport ready
[12:03] <bethelewd> bobbi it makes me ResidentSleeper too
[12:03] <thenewfaceofcreation> Dont play it if the frame is awful
[12:03] <tomahawkings> Slideshow phil
[12:03] <thefryguy88> PC is by far the best experience but it runs like shit on pc too. It's poorly optimized.
[12:04] <bethelewd> fuck the xbone x
[12:04] <clunkyd> The devs are complete trash
[12:04] <snarfu99> Why doesn't he Play it at least on Xbox One X?
[12:04] <radicalenzyme> The developers of pubg did not port it was Microsoft (who worked with a spanish studio)
[12:04] <jamison77> Xbox1 is dogshit you knew this Phill remember dark souls 3
[12:04] <onlinecombosonly> Pubg will be full release on the 20th for PC
[12:04] <seth189> Bethe knows what's up
[12:04] <succkonlemon> fucking blueballs sucks LUL
[12:04] <tubzbuster> Microsoft are the ones porting the game
[12:04] <thenewfaceofcreation> @WxRxAXTxH so much for the "best" consele dood
[12:04] <kekon3> if this doesn't work out on consoles , it's good to remind everyone Fortnite is always free and infinitely more stable :) muxy10

[12:04] <arcticsurface> The reasoning doesnt hold up because the game looks like shit, no mind blowing graphics or something.

[12:04] <lokizarro> It's down to both really

[12:04] <blacktemplar2252> @DarksydePhil It was Microsoft who ported the game not the DEVS of PUBG

[12:04] <blackdongfilp> phil x developers

[12:04] <lokizarro> More so the devs I guess in the case of the original Xbone

[12:04] <seth189> the fury my pc runs it fine on med-high

[12:04] <vendatus> We Happy Few is \$60 on the xbox store WutFace

[12:04] <bethelewd> kekon and on ps4

[12:04] <wxrxaxtxh> @TheNewFaceofCreation sux dood

[12:05] <chickendinner_91> Most of my PC settings are on low, textures on high

[12:05] <stuart360> Its good that they got the game running at all on the consoles, it runs like shit on my PC and my CPU is sooo far beyond whats in the consoles

[12:05] <infinite_sphere> EleGiggle

[12:05] <eazybayke> TekkenLili

[12:05] <thenewfaceofcreation> Lol

[12:05] <e46johnny> I bought thos crap

[12:05] <sh1nn> No it was Bluehole who ported it on XBO, Coalition only helped them

[12:05] <chickendinner_91> lol

[12:05] <seth189> black ur stupid

[12:05] <little_blake> so did they port it?

[12:05] <clunkyd> BlackTem, the devs are trash!

[12:05] <katexo234> dspSurpriseddsp

[12:05] <stunted> microsoft ported the game ðŸ˜~,ðŸ˜~,ðŸ˜~,

[12:05] <exkeine> i love u dsp

[12:05] <wxrxaxtxh> Omg

[12:05] <markv777> Yeah I agree with Phil, devs are the responsible

[12:05] <mrjekyll16> Exactly, it's not always the console his fault. It's always Microsoft sucks, Sony is Trash.

[12:05] <aes0411> If PUBG on the Xbox One is anything like WWE 2K18 on the Switch, then we are in for a treat #rage

[12:05] <thenewfaceofcreation> Wau

[12:05] <clunkyd> a game that looks like last gen and runs like shit. pathetic

[12:05] <theaveragejoe2> hollyjolly

[12:05] <bobbi_ling> fanboys in 2017

[12:05] <timboslicegb> the devs suck at porting

[12:05] <little_blake> so did microsoft port it or nah?

[12:05] <superblue555> is he going to play the ex layer beta? wait never mind probably not s goof idea

[12:05] <zukyun> current year

[12:05] <lokizarro> Both are responsible tbh because MS allow it

[12:05] <agoodrpg> lol

[12:05] <stuart360> It is Early Access though Phil, and they have said they will fix the game. Still runs like shit though

[12:05] <chomchamp> @darksydephil I agreee but i am not a whiny baby

[12:05] <chickendinner_91> PUBG team sucks

[12:05] <deepdrive3254> i thought it was 20 bethe?

[12:05] <clunkyd> the devs suck in general

[12:05] <bethelewd> not 30

[12:05] <sh1nn> microsoft didnt port it

[12:06] <bethelewd> 29
[12:06] <blacktemplar2252> You are already wanting to hate it in your chat lol
[12:06] <katexo234> 30 deaths PogChamp PogChamp

[12:06] <ronmexicooo> Good luck, brace for rage stream boys
[12:06] <stunted> phil you should really do some research before you slam a game

[12:06] <bethelewd> IM BLIND
[12:06] <deepdrive3254> oh ok
[12:06] <little_blake> new year is not gonna change anything
[12:06] <vendatus> 3 weeks?
[12:06] <markymark52> cheer10 You're running on the oldest version of the Xbox One so people have a reason to complain.
[12:06] <madrane1> Are there any french people watching Phil ?
[12:06] <e46johnny> textures dont load until 5 minutes after you land
[12:06] <arcticsurface> Its been going since years LOL
[12:06] <succkonlemon> 2017 early access shitty games
[12:06] <seth189> black templar u are a huge fanboy, chill homie
[12:06] <aes0411> PUBG is garbage. Defend it. Come on
[12:06] <wxrxaxtxh> the game is choppy as hell, good luck killing someone at 12fps
[12:06] <omgzelda> oh god PUBg on console lol
[12:06] <markv777> triggered fanboys already? jeezus
[12:06] <timboslicegb> it is still in beta but still
[12:06] <katexo234> well happy wednesday everyone
[12:06] <mrjekyll16> The devs with help from the coalition are who ported it.
[12:06] <blacktemplar2252> @Seth189 Fan boy of what PUBG? I've played it once lol
[12:06] <seth189> mark it runs as bad on the x
[12:06] <blacktemplar2252> @Seth189 Relax whiteknight
[12:06] <me__god> those sayin "it's still early access" have no idea. the game is playable on PC.
[12:06] <dredmasrer989> that next year comment is sketch
[12:06] <sh1nn> PUBG is dog shit, a dog shit that cost 30\$. yea defend it
[12:06] <seth189> then why u defending it so hard?
[12:06] <aproxymate> @blacktemplar2252 you tell em
[12:07] <tomahawkings> \$10 phil wins his first match
[12:07] <me__god> h1z1 came kinda first
[12:07] <stuart360> Why are Sony fanboys making a deal out of this?, it would run even worse on PS4 due to the lower cpu clock
[12:07] <vendatus> Fortnite is better LUL
[12:07] <onlinecombosonly> pubg was a arma mod years ago
[12:07] <seth189> if phil weins his first game ill donate 100 bucks
[12:07] <kushuluck> Fortnite LUL
[12:07] <blacktemplar2252> @stuart360 Cause it's SONY lol
[12:07] <markv777> @stuart360 thank you
[12:07] <timboslicegb> there is bigger story behind it phil
[12:07] <chomchamp> true
[12:07] <thefryguy88> Fortnite is way better it's free and it runs really well and seems to be quite stable
[12:07] <chickendinner_91> Phil needs to get a squad, then it helps a lot
[12:07] <theaveragejoe2> @me__god The reason people are saying it's early access is 'cause it IS early access. You can look at the steam store page.
[12:07] <thatbritishlad_> It's another Flappy Birds scenerio, such a basic idea gone so popular by sheep.
[12:07] <madrane1> What do you preferr

[12:07] <i_came_here_to_something> This game runs like sloppy ass on Xbox One X, it's probably unplayable on Phil's regular Xbox

[12:07] <ironjargon> late to the party

[12:07] <bethelewd> but ps4 runs better than xbox one though

[12:07] <timbosliceb> devs of fortnite worked on pubg

[12:07] <thenewfaceofcreation> All day eh

[12:07] <blackdongfilp> oh shiet

[12:07] <kozatof> Hmmm

[12:08] <kekon3> Fortnite has a 50 vs 50 mode now, it's p cool

[12:08] <blacktemplar2252> Bet he drops it lol

[12:08] <primefivebyfive> It runs like shit, but is still a lot of fun. Would still advise anyone to wait for a finished version though.

[12:08] <thenewfaceofcreation> Salt for a day

[12:08] <kozatof> Good luck with 15 FPS

[12:08] <bobbi_ling> beth stop

[14:49] <elzorrobot> @LastKryptonian94 no this game is exactly that
[14:49] <newmustard> Things like sights are better for the AKM, like red dot and X2 X4 over iron sights.
[14:49] <sprank_n> @XaxtonRevolution or just buy a pc
[14:49] <scoopula> cheer10 Welcome back Phil. Glad to see you refreshed.
[14:49] <b3nkei> LuL
[14:49] <zahvone> @XaxtonRevolution I actually really enjoy Epic Games' games because of that. You can play Fortnite with your PS4 friends while you're on PC, AND voice chat with them
[14:49] <glorytobeh> deep phil
[14:49] <mennarch> i was gonna say like life LUL
[14:49] <bigbunga> FeelsSadMan
[14:49] <reggieface420> TPFufun stop having fun in my house
[14:49] <infinite_55> lol
[14:49] <theravenger01> lol thaat got deep
[14:49] <zahvone> You can do that with Paragon as well
[14:49] <kittyspank> the secret
[14:49] <theycallmejimbob> yeah humble does that regularly they did a freedom bundle last year with 60 games and didn't tell people some of the games had limited keys Zahvone
[14:49] <theravenger01> that*
[14:49] <chrisac1989> this game is u believe
[14:49] <b3nkei> FeelsBadMan
[14:50] <libertasliber> @DarksydePhil if you have a sight put it on the AK
[14:50] <zahvone> @theycallmejimbob A lot of the keys get like that. It's owned by IGN now soooo....
[14:50] <aloofone> my ears
[14:50] <chrisac1989> Xbox one version just isn't optimised enuf yet
[14:50] <fr333stylin> @DarksydePhil Tap LT to ADS
[14:50] <bigbunga> kill them fill
[14:50] <mygtisrandom> @DarksydePhil TAP LT INSTEAD OF HOLDING IT
[14:50] <zombie___gorilla> just like life
[14:50] <>trueafricanwarrior> Wew
[14:50] <encelor> 2dar

[14:50] <chrisac1989> stick to AKM

[14:50] <dukaduka> @XaxtonRevolution no that's not the answer NotLikeThis they everyone would be playing with a mixed bag

[14:50] <encelor> @DarksydePhil repalce tommygun when you get the chance

[14:50] <chrisac1989> Tommy gun is only good close range

[14:50] <theycallmejimbob> the last humble monthly was good imo Zahvone hopefully they wont mess around with it too much

[14:50] <scoopula> Did Phil get any Chicken Dinner yet?

[14:50] <zahvone> I think cross-platform should be a thing though. Especially for MMO titles.

[14:50] <xaxtonrevolution> @Sprank_N Or that, but I think PC motherboards should have more modular parts and there are too many types of ram.

[14:50] <taniaraven> Xbox one X runs better

[14:50] <chrisac1989> use akm

[14:50] <thewisepolak> @darksydephil they went bonkers for the pc version which is miles ahead of this in both performance and gameplay

[14:50] <seth189> it probably won't because it's a cpu hog and the consoles have bad cpus i wouldn't expect for them to ever reach 60 don't get your hopes up

[14:50] <me__god> phil won the 2nd match

[14:50] <secretbossfight> @scoopula Second game

[14:50] <dankedand> So pretty much this game is where most people can just sit and wait in buildings in the middle of the circle and let people die

[14:50] <mennarch> equip a scope on the ak

[14:50] <infinite_sphere> xbox x LUL

[14:50] <zahvone> @theycallmejimbob I absolutely love Humble Bundle man. Sadly though, I have over 300 games that I've never even touched because of them though lol

[14:50] <me__god> 0 kills

[14:51] <kittyspank> ^^

[14:51] <encelor> he got 1 kill

[14:51] <scoopula> nice I will have to check it out on youtube

[14:51] <chrisac1989> it's difficult to see far away in this version

[14:51] <encelor> the afk dude

[14:51] <sirnoble> 1 kill

[14:51] <theycallmejimbob> :D Zahvone I've the same problem too

[14:51] <djrno1> dude if you want to "chill out" go prone don't crouch

[14:51] <chrisac1989> this is far better than fortnite

[14:51] <rocky2636> cheer10 are you gonna play duos or squads later? If so can I join you?

[14:51] <tupakaveli> Hold or tap LT and click in left or right stick to lean

[14:51] <chrisac1989> PC version is fantastic

[14:51] <infinite_sphere> SUUUUUURE

[14:51] <taniaraven> he killed 2 last game

[14:51] <fr333stylin> @DarksydePhil Attach scope to AKM + ADS = Lots of kills

[14:51] <darthradovanviking> isn't there other issues with cross platform as you say. If you have a pc and longer draw distance and better graphics that have to be an unfair advantage as well

[14:51] <sirnoble> @Chrisac1989 I guess, everyone has that disadvantage so it's fair.

[14:51] <angrylittlepeople> dood

[14:51] <bigbunga> BEHIND YOU

[14:51] <paddingtonbear187> WHEEEEEYYYY InuyoFace

[14:51] <bigbunga> SE

[14:51] <expertpenguin> light years is a stretch...the game still looks pretty bad even on a good pc

[14:51] <kovoruss> I used to be one of you

[14:51] <angrylittlepeople> Lol he built his pc....

[14:51] <reporterinchief> PRO GAMER LUL

[14:52] <reggieface420> i remember watching those videos of you building the pc
[14:52] <wxrxaxtxh> ACH
[14:52] <admiralprawn> How is that PC building coming along, Phil?
[14:52] <theravenger01> LUL
[14:52] <angrylittlepeople> dude bought 3k brick
[14:52] <kittyspank> was that the 90s
[14:52] <azathothcult> 10k pc
[14:52] <chrisac1989> I'm playing pc and Xbox one s
[14:52] <ass_blastor> cheer10 Will you get this game for PC? You have 1230 viewers!!
[14:52] <kovoruss> I used to build gaming pc's as a hobby
[14:52] <djruno1> when the fuck were you a pc gamer. first there was arcade machines and then there was consoles
[14:52] <encelor> @Ass_Blastor his pc sucks
[14:52] <sprank_n> @Ass_Blastor blast mine please
[14:52] <xaxtonrevolution> I think the graphics are better on PC and you can get better performance, but I don't think that PCs are for everyone
[14:52] <legended> @DarksydePhil How do you feel about people who use XIM4?
[14:52] <theycallmejimbob> :D DJRuno1 damn
[14:52] <dirtyosanchez012> That story again, you need help to plug a USB phil
[14:52] <wxrxaxtxh> LMAOO
[14:52] <admiralprawn> If you were a PC builder, why not stick with the PC? Sounded like you enjoyed it.
[14:52] <zahvone> @DarthRadovanViking There's definitely an issue with that, for competitive titles and such. I don't think it would matter much for games that focus more on group activities and such
[14:52] <elzorrobot> boring but better than watching a chess match
[14:52] <retrocerverus> ResidentSleeper
[14:52] <chrisac1989> PC is difficult. harder to get kills. Xbox one is harder to see enemies in the distance but I think it still is a great game even though it doesn't run as smoothly
[14:52] <xaxtonrevolution> I like hoard all the parts from all the PCs I have so it's not a good hobby for me to have.
[14:52] <kittyspank> lots of communicating now
[14:52] <djruno1> @theycallmejimbob dude how many pc games has he played since he is on yt? 3?
[14:53] <azathothcult> lost 100 views since guttural belch
[14:53] <zybatzoo> As far as I know draw distances are the same for everyone no matter what your graphics are set at
[14:53] <oledtvmasterrace> Itâ€™d be boring garbage at a billion frames per second and controlled by only your thoughts! Streamer bait garbage.
[14:53] <cheshirezerg> my pc is 7 years old and runs this game just fine
[14:53] <newmustard> If you land in high density loot areas like School or Military base at the south the game play is intense to start - not my cup of tea
[14:53] <dragonpoison> @DarthRadovanViking draw distance doesn't draw in players, only textures like trees and grass. It is actually better to have lower graphics settings on thing like foliage and shadows to be able to spot players more easily. There is no way to pay for a better computer to win matches in PUBG.
[14:53] <theravenger01> @DarksydePhil a 780ti and 4930k should run this fine lol
[14:53] <zybatzoo> In terms of seeing a player
[14:53] <infinite_sphere> 3 year old pc = outdated. yup. thats why i dont game on pc LUL
[14:53] <ass_blastor> cheer10 You can try the game on PC and get a refund if its not good
[14:53] <darthradovanviking> dspHm
[14:53] <chrisac1989> gtx 1050ti on medium.. looks far better than this

[14:53] <theycallmejimbob> couldn't tell you DJRuno1 the last game I seen him play was some F2P on steam months ago :D

[14:53] <seth189> 3 years doesn't make a pc outdated christ this hurts to listen to
[14:53] <retrocerverus> dspPepe dspPepe dspPepe dspPepe
[14:53] <rotoch4mp> 3 year old console outdated too
[14:53] <bethelewd> yes far

[14:53] <bigbunga> defecate on stream
[14:53] <bethelewd> fart
[14:53] <xaxtonrevolution> That's what I like about consoles, they don't go outdated as often; I'm not saying one is better, I'm just saying that that's my preference.
[14:54] <takisq> it was outdated when it was built anyways @Seth189
[14:54] <theravenger01> @Seth189 ikr the most overused myth
[14:54] <encelor> i kinda doubt he can play it on pc
[14:54] <theravenger01> against pc

[14:54] <djruno1> @Chrisac1989 yeah but who buys a 1050ti for gaming?

[14:54] <eternia_forever> top 30 jimmy :D @theycallmejimbob

[16:37] <strugglesome> they are pretty useful if you are far from the circle
[16:37] <thatanonyraccoon> I Hate Everything had a gr8 video about why Destiny 2 is bad
[16:37] <i_came_here_to_something> @Seth189 There's nothing graphically demanding about the game so the console ver running bad on X is down to the devs not caring to optimize. Maybe it's a heavy CPU-based game tho, X still has shitty Jaguar cores like Pro and the other systems
[16:37] <spongebelt_> Fortnite is more polished

[16:38] <meshugamaven> The game will be better, hopefully with the 1.0 update coming soon...we shall see
[16:38] <convertedclone> tho*
[16:38] <octoa> the only issues I'm having with Destiny 2 are how Bungie just seems fucking incompetent in terms of PR and basic game decisions
[16:38] <seth189> @I_Came_Here_To_Something that's the point, its a cpu hog, not gpu. thqt's why on the X it runs just as bad, the consoles have gharbage cpus
[16:38] <theravenger01> @Octoa I agree
[16:38] <octoa> like, right now, the prestige raid is no more difficult
[16:38] <tupakaveli> @DarksydePhil If you wanna learn ALL of the controls, just hold the start button for 2 second. Givin' you a heads up.
[16:39] <theravenger01> yeah
[16:39] <encelor> fulltime pubG streamer
[16:39] <zybatzuu> Trust me watching half way competent players changes the feel of this game completely
[16:39] <dylannw> This formula was kinda done years ago in The Last of Us Multiplayer in 2013, theres a mode in TLOU where is basically BR
[16:39] <octoa> because people bitched and moaned after the DLC released and they couldn't play it
[16:39] <teargas101> who in here plays warframe, i havent played since that priest frame made its entrence
[16:39] <meshugamaven> @seth189 itâ€™s also just terribly optimized
[16:39] <seth189> yeah, that too
[16:39] <octoa> so instead of growing a fucking spine, Bungie just reduced to level cap
[16:39] <zybatzuu> There's a reason it has sold 20 million copies in only like half a year

[16:39] <asloppybr> bruh how muck 9mm you need
[16:39] <dweezlr> crossbow.
[16:39] <convertedclone> what is it

[16:39] <theravenger01> @Octoa wow lol
[16:39] <lord_edmund_blackadder> It looks like it's a crossbow
[16:39] <i_came_here_to_something> @Seth189 Yeah, I was wondering as such. Lots of A.I-based stuff to account for, A.I and logic don't give a fuck about GPU power, only CPU.
[16:39] <socks68> no
[16:39] <seth189> thats just why its so bad on console, its horribly unoptimised and a cpu hog hosting 100 people
[16:39] <oooooar> phil im sorry but ur the worst person ive ever seen play this game

[16:40] <lancesjohnson> lol @strugglesome
[16:40] <thatanonyraccoon> there's guns
[16:40] <octoa> meaning there's no fucking point to doing Prestige because people are fucking retarded
